

## RETURNABLE DIVIDERS

ITB Packaging LLC returnable dividers give distributors a valuable returnable packaging solution. Our dividers are custom, soft, flexible, collapsible, rectangular cells.

### ITB offers:

- ◊ lower price,
- ◊ quality,
- ◊ short lead times,
- ◊ ease of design process,
- ◊ speedy quotes,
- ◊ quick sample request turn-around,
- ◊ no tooling,
- ◊ and excellent part protection.

### When to Use ITB Returnable Dividers:

- ◊ typically with lighter weight parts (under 5 lbs)
- ◊ divider is to be installed in tote, bin, or returnable box

### Available materials:

- ◊ **Blue plush** - Blue-brushed polyester on both sides with polyester center for body. Most durable with the highest surface protection. Competes well against Soft Edge, Sewn Headliner, Sewn 5oz Ultra, Pcor Soft Edge, Pcor Brushed Polyester, Pcor Spunbound.
- ◊ **LX**: polypropylene felt. Very good surface protection, price point product, durability is good. Great material for totes and bins. Competes well against: Pcor Soft Edge; Pcor Brushed Polyester; Pcor Spunbound.

### How to Quote:

- ◊ Quoting can be done through an email form by providing a few vital pieces of data such as container size, cell size, and number of cells.
- ◊ Contact Gene McClain at [gene.mcclain@itbpackaging.com](mailto:gene.mcclain@itbpackaging.com) for access to ITB's quoting email form.

## EXPENDABLE DIVIDERS

ITB Packaging LLC returnable dividers give distributors a valuable expendable packaging solution. Our dividers are custom, soft, flexible, collapsible, rectangular cells.

### ITB offers:

- ◊ lower price,
- ◊ quality,
- ◊ short lead times,
- ◊ ease of design process,
- ◊ speedy quotes,
- ◊ quick sample request turn-around,
- ◊ no tooling,
- ◊ and excellent part protection.

### When to Use ITB Returnable Dividers:

- ◊ typically with lighter weight parts (under 5 lbs)
- ◊ divider is to be installed in bin or box (larger than 30"x32")

### Available materials:

- ◊ **26# Smooth Kraft:** Strong with very good body for lightweight parts. Smooth and flexible to protect most parts such as molded in color plastic or painted. Recyclable. Competes well against corrugated; corrugated with Nomar
- ◊ **26 # Smooth Kraft with Nomar Coating:** Strong with very good body for lightweight parts. Smooth and flexible material with the additional part-protecting Nomar coating. Recyclable. Competes well against corrugated with Nomar and PE coated.
- ◊ **Bubble Wrap:** The cushion of bubble wrap in the form of a divider. Available in regular and anti-static.
