

Innovation In The Box

Based in Holland, Michigan, our team has decades of experience in manufacturing and distribution management. Early on we recognized the potential for packaging system innovation and have developed advanced technologies and divider products powerful enough to revolutionize the industry. We keep it simple: innovative design, cost-effective manufacturing, superior customer service, world-class processes and total quality management.

Cold Chain Meal Kit & Grocery

ITB Packaging is changing the way meal kits & grocery are being shipped. With our patented and flexible paper divider systems, we offer a solution that gives design flexibility, cell optimization, ergonomic impacts and significant cost savings. The manufacturing process requires no tooling for easy set up and quick response time. In addition, these solutions are completely recyclable and collapse completely with the dividers inside the box.

Our customers see savings not just in material but throughout their supply chain. This allows you and your customers to handle a single sku. Whether you are shipping your products to a distributor, wholesaler, or an end user, we can get it there safely.

Capabilities

- Expendable Solutions
- Returnable Solutions
- ISO 9001 - Certified
- Manufacturing
- Engineering
- Assembly
- Design

Materials

20# Smooth Kraft
Strong and flexible paper for most parts; recyclable.

20# Smooth Kraft Nomar
Smooth kraft with added part protecting coating; recyclable.
